## SURVEY WAS MADE BY GUESS

Rush County Man Prevented  
Survey by His "Bull-  
headedness."

"A LYING ABOUT A LINE"

Then Another Surveyor Claims  
He Would Prefer Brook's  
Guess to Gregg's Survey.

One of the most peculiar records on the books in the Rush county court house, is one which dates back in 1871, on the county survey on record. If it reflects the spirit of the times, let us not refer to that period as the "good old days." But fortunately there is but one dark page in the records of a year, and we guess that good will and friendly feelings predominated then as it does now.

But the record shows that in drawing a line, one man "drew the line" while another declared he was a "lying." It is a case of "back tracking" over a tract of land, and little wonder that a fist battle did not occur for the "lands sakes."

The dispute arose over a survey on the old Brooks farm in Union township made by J. C. Gregg, then Rush county surveyor. There was some difference about a field which lay in the southeast corner of the tract, one contending that it contained 30 acres, while another declared there were 38.08 acres in the field.

At any rate, the following is J. C. Gregg's report, which shows conclusively that Mosley Brooks was a man of his "own convictions," and could not be called a "running brook."

"I was called on to survey and divide the southeast square of this section in 1871 by William Brooks. I started to find the center of the section by cross lines, but was prevented from doing so by the bull headedness of Mosley Brooks, who insisted that I should locate said center by his guess. And the parties submitting to his say, we did so. Consequently the whole survey is only guess work. J. C. Gregg, County Surveyor."

Another survey of the whole tract was made in 1876 by County Surveyor R. R. Spencer. His report says in establishing corners of the tract: "There being no objections made to the corner stones set by J. C. Gregg (placed by Gregg on Brook's guess, and 'bull headedness') I regard them as correct, notwithstanding his remarkable record as above, because I have more confidence in Mosley Brooks' guess than I would have in a survey made by Gregg."

"Scudder met Greek" yesterday and under favorable circumstances, and the meeting was very much appreciated.

R. F. Scudder, secretary of the Improvement Association was sitting in his office yesterday, when A. Kutche, of Richmond, proprietor of the Greek candy store in this city, came in and said that he desired to subscribe \$25 to the factory fund, and he forthwith "cracked down twenty-five plunkers."

As the subscription was unsolicited, and was "cash down," it entirely took the breathe out of Mr. Scudder, and he had to postpone his words of appreciation until later in the day.

There is not enough of this "American" spirit manifested among our citizens, and more especially among the business men, for many have not yet paid their subscriptions and many have not even signified their intention of doing so. It's provoking.

## HOLIDAY RATES

There is Much Uncertainty About  
Them, But Chances are  
There'll be None

There is much uncertainty as to what the railroads will do as to reduced rate for traveling during the holidays. It is said that many of them will give no reduction.

The Lake Erie and Big Four issued no orders as to the rate, but it was said that they would probably have to meet the other roads if they made a reduction in rates. The Pennsylvania has announced a reduction, but it is so small that it will cut but a small figure in the expense of travel. None of the local roads gave cheap rates for Thanksgiving.

## OUR CATTLE ARE TOO LARGE

Bidders Declared Rush County  
Cattle Too Big For Their  
Trade.

The Indianapolis Star today contains a picture of a large steer raised by F. M. Bilby, of this county. Accompanying the picture is the following article:

"What is said to be the heaviest car load of cattle ever seen in the Indianapolis yards was offered yesterday. There were ten head in the consignment and the average weight was 1861 pounds. These Shorthorn steers belonged to F. M. Bilby, a Rush county farmer. Three of the number weighed over 2400 pounds each. The really big fellow weighed 2880 pounds. This specimen is six feet tall, and measures thirty-eight inches across the back. Bidding on these cattle was very slow. The buyers stood around and marveled at their size, declaring that they were too big for their trade. Finally the whole lot was disposed of to the United Dressed Beef Company of New York at 5.75 per hundred pounds. Some of them were six years old."

## DOG BITES HIM IN THE FACE

Tearing Center Frame of His  
Nose and Lacerating Flesh  
Above the Eye.

Steve Hutson, of Osgood, who is visiting at the home of Jude Levi, on South Pearl street, was bitten by a dog yesterday, and the injuries he sustained may not prove serious, but will mark him for life.

He was playing with the dog, when it suddenly leaped up in the air and grabbed him, catching its lower teeth below his nose and its upper teeth above the left eye. If its upper teeth had struck an inch lower he would have lost his left eye. As it was the flesh was lacerated above his eye and the center frame of his nose was torn.

Today his face was swollen from the poisoning which accompanies a dog bite. Dr. E. I. Wooden dressed the wounds.

## MINE LET GO

Deadly Explosion of Dust Follows  
Shot at Seeleyville.

Seeleyville, Ind., Dec. 6.—Two men are dead and fourteen seriously injured as the result of a dust explosion in the Rosebud mine east of here yesterday afternoon. The explosion followed a shot and caught 180 miners in the mine. All escaped except the sixteen men who were terribly burned.

Riley Rinehart of Brazil and W. Benham of Knightsville were taken out alive, but died before they could be taken home. The injured men live in Terre Haute, Seeleyville, Brazil, Staunton, Harmony and Knightsville. All were taken home and it is believed there will be no further fatalities. The report of the accident caused intense excitement in all the towns where the miners lived. The mine employs 300 men, but part of these had started home at the time of the explosion. The mine was not seriously damaged, and only those in the vicinity of the explosion were dangerously injured. Uninjured men aided the victims to the shaft.

It is said that one of the miners, in making an entry, used dynamite instead of powder and the explosion which followed set fire to the mine dust. The rules strictly prohibit the use of dynamite.

## AN ECHO FROM MISS WISDOM

She Writes a Letter While  
on a Train, Full of Inane  
Excuses.

THE WISE MISS WISDOM

One of the Girls Takes it Very  
Hard and Writes a  
Poem.

A faint echo is heard in the Dorothy E. Wisdom case. She has written a letter to one of the girl students whom she promised a position in Indianapolis, and she makes a number of inane excuses which shows a guilty conscience.

The letter was written on a train (at least she says it was) and was mailed on a train. In this way no city postmark was put on the envelope, and one can not tell where the letter was posted. Probably Miss Wisdom did not wish to keep her students "posted" on her whereabouts.

An attorney has the matter in hand, and will make an investigation soon, and if "Wise Miss Wisdom" (that wouldn't be a bad name for a farce) is located, he will endeavor to have her remit in full for the unexpired terms of students, whom she left in the lurch, and also ask her to pay back money for discommoding the several girls who resigned their positions, preparatory to leaving for Indianapolis.

One of the pupils, who has evidently taken the matter good naturedly, sought consolation in invoking the Muse and hands us the following poem:

A lady from St. Louis called Dorothy,  
Arrived in our city one day.  
She had traveled this great world over,  
And settled down here to stay.  
For about six weeks, the fair Dorothy  
Taught short-hand lessons just fine,  
She promised all kinds of positions;  
We all thought Dorothy sublime.

She had traveled with Wm. J. Bryan,  
And wrote all his letters for years;  
The dainty, demure little Dorothy,  
Who entered our city, mid cheers.  
There were sixteen for one waiting,  
To take from this creature divine,  
Short-hand and type-writing lessons,  
And secure a position, in time.

This fair lady told many stories,  
Of her travels in countries abroad;  
Was precise in her pronunciation,  
And misspelled never a word.  
While sojourning in Melbourne, Australia.  
She did a great act—the high dive—  
She told two young men all about it,  
It's a wonder that she is alive.

This maiden who gave us the lessons  
Used the latest typewriting machine.  
Oh my, but it was a dandy,  
The best that we ever had seen.  
It had all the latest improvements,  
We could make it write red, blue or black.  
Now all we regret is that Dorothy  
Has left us and never come back.

## WILL DEDICATE NEW CHURCH IN CARTHAGE

The new Wesleyan M. E. church at Carthage is to be dedicated Sunday, Dec. 16th. Rev. Aaron Worth, a former presiding elder in this district, and Rev. J. J. Coleman, a former pastor of the charge here and the present elder and other prominent members are expected to participate in the services. A special musical program will be prepared for the occasion.

Shelbyville Republican: D. L. Watson, the attorney, went to Rushville today, where he has been selected as a special judge to try the case of Landers vs. Carthage Strawboard Co. The defendant brought suit against the company for injuries he received in 1903 while he was installing a large boiler in the plant. The suit is for the sum of \$10,000.

Sacred Tooth in India.  
In a recent lecture in New York an American traveler told of a sacred tooth in India which for 2,400 years had been an object of worship, and for which \$250,000 had been refused. "In hundreds of other shrines in India," he said, "the teeth of human beings are worshipped by Hindus, who above all value good teeth as the reward of good ancestry and of eternal vigilance in the care of the body."

## ANOTHER ADVANCE

Soft Coal is Up 25 Cents a Ton—  
Situation is Getting  
Worse

More good (?) for the coal consumers. Another twenty-five cent advance in the price of soft coal is announced. The rise covers all kinds except Hocking Valley, and few people use that kind, anyway. This brings Pocahontas up to \$5.50 a ton, not much cheaper than anthracite. The car shortage situation is given as the cause for the advance.

Local coal men are very much concerned over the car situation. They are running short on all kinds of coal. One dealer states that he hasn't a single pound of nut coal and there is no prospect of him getting any.

Yet, other towns are worse off than Rushville, when it comes to the coal business, for nearly all the residences use gas, and we have plenty of it.

—When Man Becomes a Sprout.

When all reforms have been realized and everybody's life is trained up in the way it should go on the government trellis and every little sprout with an instinct to branch off in a new direction is gently drawn back and tied with the other vines then, says the New York Globe, a man need only shut his eyes and grow in his allotted place in the trim human garden maintained by the state. He will become a useful human vegetable in this Utopia so many social philosophers are now striving for.

## SERMON IN PLAIN LESSON

Timely Advice Regarding  
the Management of Municipal Plants

A DAVID HARUM TEXT

An Electric Lighting Plant is  
Like a Horse—Only  
Different

A series of interesting and instructive primer lessons have been compiled by that great teacher—Time. We print the following dealing with municipal plants, and what should be done regarding them: "The subject of depreciation is well worthy of the careful consideration of those who are prone to ignore that item in estimating the cost of lights supplied by municipal plants. But as more people own horses than lighting plants it may be helpful to consider depreciation as applied to horses.

You pay \$250 for a five-year-old horse. That's original cost. If you borrow the money you must pay interest on it. If you don't borrow it you lose the interest you would get if you didn't buy the horse. Either way it's interest. You feed the horse, and perhaps hire a man to take care of him. That's operating expenses. You get him shod occasionally and call in the veterinarian when he is sick. That's renewals and repairs. After a few years, in spite of the best of care, the horse is no longer capable of doing the required work and is sold for \$50, a loss of \$200 as compared with the original cost. That's depreciation. If you haven't laid that by year by year out of the horse's earnings, you've got to borrow it to buy a new horse, and you may not find it easy to do so if you haven't repaid the original loan. That's what happens to municipal plants that don't provide an adequate depreciation fund."

## "KIPP" WILL BEGIN AN INVESTIGATION

Has Sent For the Participants in  
The Divilbliss-Steele Shooting  
Scrape.

Deputy Prosecutor Kiplinger will begin an investigation tomorrow of the Divilbliss-Steele shooting scrape which occurred in Center township two weeks ago.

The dispute which led to the shooting arose over the clearing of a strip of land. It is understood that when the men became involved in a controversy, Roy Divilbliss grabbed a club and started after Ed Steele, whereupon Steele picked up his ax to defend himself, and ran Divilbliss off the place. The latter went to his home, and returned with a Winchester repeating rifle, 32 calibre, and began firing at Steele. He fired three times, the first one going wide and the other two bullets were planted in a tree, behind which Steele was standing for safety.

It is likely that the grand jury will air the matter thoroughly.

Fraudulent Use of Mails.

Toledo, O., Dec. 6.—On a plea of guilty to the charge of using the United States mails to promote a scheme to defraud Charles Whitney Norton was sentenced to the Ohio penitentiary for eighteen months and to pay a fine of \$100 by Judge Taylor in the United States district court. Norton had operated in various parts of the country. His specialty was mining stocks.

Rolling Stone to Gather Moss.

Evansville, Ind., Dec. 6.—Rev. D. C. Canty, minister of the Oakdale mission, will roll the cornerstone of his new church from one end of the city to the other and through the principal streets of the city in order to give publicity to the building of the new edifice and for the purpose of securing new funds.

Finley Succeeds Spencer.

New York, Dec. 6.—The directors of the Southern Railway have elected W. W. Finley of Washington, president of the company, to succeed the late Samuel Spencer. Mr. Finley has been second vice president of the road since Sept. 15, 1896. He has been active in railway work since 1875.

## WARNED 300 DRUGGISTS

State Health Board Determined  
that Only Pure Drugs and  
Food be Sold

The State Board of Health has sent letters to nearly 300 druggists of the State informing them as to the analysis of the samples found at their stores and advising them that the practice of selling such products must cease.

In many cases druggists and grocers objected to an inspection of their stores and refused to sell samples of drugs to the inspectors, but they were given to understand that the law compelled them to do so and they acquiesced without further trouble. In all the inspectors gathered about 1000 samples of drugs for analysis.

## WORK HOUSE PLAN IN CONNERSVILLE

County Commissioners Will Feed  
Prisoners While City Pays  
Cost of the Place.

The county commissioners of Fayette county will establish a work house. A building will be rented where the prisoners will be worked on a stone pile and at other manual labor. The county is to feed the prisoners and the city will pay the cost of maintaining the workhouse, rent, guards, etc., and in return will receive the benefit of all labor performed by the prisoners. The prisoners will also be worked on the street. Only prisoners so designated by the court shall be obliged to do manual labor.

## UNEXPECTED DEATH OF STATE STATISTICIANS

[Special to the Daily Republican.]

Joseph H. Stubbs, chief of the Indiana Bureau of Statistics, died at his home, in Indianapolis, at about 5:30 o'clock this morning. Though he has been sick for more than two months and confined to bed for almost a month, his death was a surprise, even to his nurse, and a shock to the family and friends. He was fifty-one years old.

Mr. Stubbs has been in bad health for several years, and more than once had been compelled to stop his work at the office because of illness. The sickness that resulted in his death developed about two months ago. It seemed to be a liver trouble, and for the first four weeks he was alternately better and worse.

## STATE NEWS

Girls Have Narrow Escape.

Indianapolis, Dec. 6.—In a fire that started from an explosion of thousands of paper matches in a local match factory, eight young women were burned, four of them seriously. The others were painfully burned and injured in their frantic efforts to escape from the building. Several other girls were slightly hurt in the panic that followed the explosion. The fire department extinguished the blaze and the entire loss on the place will not amount to more than \$1,000.

Due to a Broken Rail.

Frankfort, Ind., Dec. 6.—One person was possibly fatally injured, three seriously, twenty-three severely and others slightly hurt in a passenger train wreck on the Monon railroad near Cambria, a small place six miles north of this city. The accident was due to a broken rail. Two coaches were piled in a heap in the ditch, and fire was narrowly averted. It is regarded as marvellous that no one of the 175 passengers was killed.

Shot Without Provocation.

Shelbyville, Ind., Dec. 6.—Without warning or cause, Charles Hall, a negro, shot William Holden at the Coulter & Purtwangler camp, east of this city. The men were employed by the construction company. Holden was seated in his tent when Hall entered and fired three shots, two of which took effect, one in the left arm and the other in the thigh. Hall then boarded a freight train and escaped.

Despondent Man's Suicide.

Washington, Dec. 6.—Frank Phillips swallowed rat poison and died four hours later. He was thirty years old, unmarried, and no reason is assigned unless despondent because of dissipation.

Crushed by Falling Rock.

Terre Haute, Ind., Dec. 6.—A large rock fell on Frank Dean, a miner, killing him instantly. His neck was broken.

## WATSON WILL KILL SUBSIDY BILL

For the Present at Least—Will  
Not Report it Out of  
Committee.

Congressman Watson arrived in Washington yesterday, and according to dispatches "got busy" immediately on the great issues confronting the short session of Congress. The dispatch says:

Congressman Watson returned from Indiana today. He had a conference soon after his arrival with Gen. Grosvenor, chairman of the committee on merchant marine and fisheries, and later he was closeted for a good while with Speaker Cannon while they considered in detail the provisions of the ship-subsidy bill, which passed the Senate at the last session, and which is pending before the House Committee on Merchant Marine and fisheries, of which Mr. Watson is a member. After the conference between Mr. Watson and the speaker, the Indiana congressman announced in the most positive terms that he will not vote to report the bill out of committee.

"The objections to it are numerous and vital," he said. "I am in favor of a bill to build up our commerce with the South American countries, but I will not support a general ship-subsidy bill. I think we should pass a bill that would enlarge our commerce with South America and give us entrance to the splendid fields of trade that are now gleaned by Europe."

This is the policy that Secretary Root is urging after his trip into South America, where he made an exhaustive study of conditions."

Congressman Watson's positive announcement that he will oppose all efforts to report the pending measure puts a barrier in the way of ship subsidy legislation that will be difficult to overcome.

## SOCIETY NEWS

Mr. and Mrs. John Demmer, of West Second street, announce the marriage of their daughter, Miss Mary, to William Binkley, of Greencastle, which will take place next Tuesday evening at 8 o'clock. Her sister, Miss Gertrude was married about two weeks ago to Lote Carter, of Huntingburg.

The Friday Afternoon club will postpone their next meeting until Tuesday, Dec. 11th at which time they will be entertained by Mrs. Jesse Vance, on East Fifth street.

## DEATHS

Mrs. Martha J. Hefflin died at her home in Arlington last night about 6:30 o'clock. She was born in Indiana, sixty-seven years ago, and was the widow of the latter Louis Hefflin, and the daughter of Aaron Jones, a pioneer of this State. Death was due to cancer. Deceased leaves a large family of grown-up children. The funeral will occur Friday morning at 10 o'clock at her late residence, conducted by Rev. Beck. Interment in the Arlington East Hill cemetery.

## CHURCH NEWS

—Rev. Beck, of Arlington, is holding a series of revival meetings at Goddard's church this week.

—Several new members were added to the M. E. church at Arlington during the revival just closed.

—Next Sunday, December 9th, is the regular meeting day at Blue River Baptist church.

—Rev. F. B. Thomas, pastor of the Little Flatrock Christian church, will preach next Sunday morning on "What Is Love" and in the evening his text will be "Are You Entitled to Life."

## BY THE WAYSIDE

The New Castle Courier says: The recent order posted at the local postoffice to the effect that rural mail carriers must spruce up and make a neat appearance at all times, has caused the following effusion on the part of one of the carriers:

We've been inspected,  
And thoroughly disinfected;  
We may look dejected,  
But what could be expected?

LOOK at the collar of a Garson-Meyer Coat. Observe its clean, flat set at the neck and chest. Notice the admirable shoulder-drape. See when the coat is open how finely it hangs. And then remember that these are lasting qualities in Garson-Meyer Clothes—they're put in to stay—sewed right into the garments. The wear of the fit is just as important as the wear of the cloth. You get both in Garson-Meyer Clothes.

### TEMPERANCE LEGISLATION

Senator Moore Will Seek to Amend His Former Law.

Indianapolis, Ind., December 6.—Senator T. T. Moore of Greencastle will ask the next legislature to enact a "blanket" remonstrance law good for five years. He is the author of the Moore amendment to the Nicholson bill. However, he said today: "The only bill that I shall draft and present will be a measure to regulate proof in remonstrance cases. It will be practically the same bill that I introduced two years ago. At that time it met defeat after my two-year remonstrance measure had passed. Many of the legislators declared that the latter measure was enough to pass at one session. But in view of recent decisions of the supreme court I believe that it is imperative that a law relating to proof in remonstrance cases be passed at this session. The measure that I shall introduce shall provide that in remonstrance cases, where the eligibility qualifications of three-fourths of the signers is not questioned, that the applicant for the liquor license shall specifically designate the persons who, according to his opinion, are not qualified to sign the remonstrance."

Argument in the proceedings of the Indiana railway commission to mandate the United States Express company, the Adams Express company and the American Express company to deliver goods to any point in a city to which they are consigned, was heard by the full bench of the superior court and Judge H. C. Allen of the circuit court. The commission is trying to uphold the law enacted by the legislature in 1901 providing for the delivery of packages to any point in a city or town of over 3,000 without extra charge. In Indianapolis the express companies are said to make an extra charge for all packages delivered outside a mile radius from the center of the city. The commission is also asking that the companies be compelled to pay penalties amounting to several thousand dollars for violation of the law. The express companies insist that the law of 1901 is invalid because it conflicts with the interstate commerce law, and that the commission cannot maintain action to compel them to pay penalties, as it has not proved discrimination. The commission has taken similar steps against the Postal and Western Union Telegraph companies.

The railroad commission hopes to bring about a harmonious agreement between the E. & T. H., the E. & I., the Southern Indiana and the Big Four about the handling of coal, without going to the extreme of pushing the suit for an injunction against the Big Four to prevent it from diverting the cars of the three other roads mentioned, to other lines. The suit really has not been filed for action. It is lodged with a clerk at the court-house, but has not been spread of record in the regular way it will have to be if it is to be acted on. The commission is hopeful since the E. & T. H. and the E. & I. lifted their embargo against the Big Four, that the Southern Indiana will follow suit. Then if the commission can get the Big Four to agree to return the other road's cars promptly, the purpose of the suit will be accomplished without going to trial. The coal operators and dealers are anxiously awaiting the outcome, as their business is badly crippled under the present conditions.

A call has been issued for a meeting of manufacturers, shippers, operators and other business men of the state at the Claypool hotel here, Dec. 12, to perfect an organization to go before the legislature in January and ask for the enactment of laws under which the railroad companies will be compelled to furnish adequate transportation facilities. A strong circular letter bearing on the conditions that are giving the shippers, manufacturers and coal operators so much trouble last year, has been sent out by a committee representing the Indiana Shippers' association organized at Anderson several days ago by gas belt manufacturers. The committee handles the situation without gloves, and urges that vigorous measures be adopted.

Kramer Rink Will be Completed and Opened in Three Weeks

The brick work on the new skating rink is completed and the roof will be finished tomorrow, when the flooring will be begun. The floor will be one of the best in the country and will contain 5000 square feet. The rink when completed will have a seating capacity of about 400, aside from this great floor space, but in event it is used for conventions, public meetings, etc., over 1200 people can be comfortably seated. The Stockmen and Corn Growers Association will use it for their meetings in January. Mr. Kramer says the rink will be ready for occupancy in about three weeks, and it is his intention to give a formal opening on Christmas eve. It will be one of the best skating rinks in the State, as everything will be new throughout. The skates will be of modern design, street rollers and ball bearing, and the floor will be conditioned to obtain the very best results.

## WORD RUSHVILLE WILL BE PUT ON POSTAGE STAMPS

Postage stamps of the issue of 1907 put on sale at the 6000 presidential postoffices will bear on their face the name of the State and city in which the postoffice is located. Two of the principal reasons for the change are that the thieves who steal stamps will be more readily caught, or at least they will be unable to dispose of the stolen stamps, and that each postoffice will get full credit for the business it does.

## PEOPLES' COLUMN

Under this head we will print short discussions of public questions and timely topics, but the Republic will not be responsible for the opinions expressed—they are the opinions of the writers and not of the Republic. Nothing of a libelous nature or personal reflection will be printed. The writer must confine themselves to the question discussed. While the article may be signed by a term de plume, the name of the writer must be signed for identification.

### The Automobile.

Some one said the other day that he would like to hear from Elijah Hope on "the automobile."

Well, it will not take long to give you a few rudimentary thoughts, though I must confess that there is a great deal on this vexing problem that is not quite clear.

In the first place, I have no desire whatever to own an auto, and if by chance one should come into my possession, it would be converted into books as soon as an intelligent bargain could be made. I envy no man the pleasure he gets from his automobile because of the sense that I get as much pleasure from walking or riding behind a "gentle" horse.

Whether the automobile is a good or a bad invention, or whether the benefits will balance against the broken necks, time alone can tell. Here, however, are a few observations:

Every public utility should be for the greatest good of the greatest number. Our public highways are for the use of every one who has reached the age of accountability, and, if, after several years of patient endurance on the part of autoists and farmers, it is discovered that automobiles are an unqualified nuisance; why, then we can substitute air-ships.

Observation No. 2—A high rate of speed on the public highway should be positively prohibited—unless I should get a collar-button fast in my wind-pipe and the doctor is coming to help me get it out.

Observation No. 3—The automobile seems a little extravagant as a private conveyance.

Observation No. 4—Try to think of something that will bring happiness to the greatest possible number of people before buying an automobile. If you shall give heed to this exhortation the automobile problem will soon have settled itself.

Yours in Affliction,  
ELIJAH HOPE.

## CAN HELP THE RURAL ROUTE CARRIERS

Rural route patrons who put pennies in their mail boxes, might try the plan suggested by the Pulaski county man. Put a Mason can lid in the box and place the pennies in the lid. It is much easier to pick up and the carrier does not have to take off his mittens. It would also be a good plan to set your boxes in position that the carrier would not be compelled when the snow is deep to get out of the wagon in order to reach the box—in fact, see if you can't work to the comfort of the carrier.

## ENOUGH MONEY TO BUILD ANOTHER LINE

Well, Hardly That Much, but I. & C. Get "Chunk for Junk"

Speaking of the wire which the I. & C. traction company sold, the Shelbyville Republican says: "\$33,000 worth of copper wire! That is what the Joseph Ziegler company, of Anderson, has just purchased of the Indianapolis & Cincinnati Traction company.

The deal is one of the largest recorded in Indiana in many a day.

When the I. & C. finished stringing the new wire between the Indianapolis junction and Shelbyville there was something like 100 tons of the old wire ready for the junk dealer, together with much other copper in the way of fixtures and parts. Mr. Ziegler, the head of the firm, stated to a representative of the Republican that he had paid "in the neighborhood of \$33,000 for the copper."

"It is one of the biggest lets I ever bought," he said, "but here is a ready market for it and I have already sold it to a big firm in Rochester, N. Y., that will work it over by putting it through the smelters. Maybe the government will get hold of it and some of it will get back to Shelbyville in time in the shape of copper pennies."

The members of the old Ypsilanti Club will meet tonight a Dr. Carl Behrer's office to complete arrangements for a banquet and dance to be given during the holidays.

### BY THE WAYSIDE

"Papa, oh papa, I want a little bit's a baby sister for Christmas—kin I have it" was the plaintive prayer of a lonesome only son of seven years.

"We'll see," said the his father who never turned from the paper he was reading.

"Oh, answer the child in a decent manner, John, when he asks you anything," said the thoughtful mother, "can't you see his little heart is all wrapped up in what he is asking for—all he thinks about is Christmas and a little sister."

"Now you begin. Just fuss, fuss, fuss," said the husband suddenly taking an interest in the conversation.

"Wasn't I looking up the advertisements for what the boy wants?" "Are you crazy, John?" said his wife, "didn't you hear what we were talking about?"

"Sure," he said, a smile broadening on his face, "and I told you I was looking up the advertisements. That boy of mine shall have anything he wants, or I will know why. Oh! here it is."

"What?" said his wife putting her arms about the boy, thinking her husband had suddenly gone mad.

"The name," he said, "the name I have been looking for—Dr. Bill Blankety—Yes, that is the very name. See here is a news item. This is the advertisement we have been looking for."

And the news item summarized, which he read to his wife said: "The last seven trips that Dr. Bill Blankety accompanied the stork, the result was the leaving of a girl at each home they visited. And three of these have been within the last week."

"What's papa doin'?" said the little boy, as his mother laughed and patted him on the head, while his father was laboriously cutting an "advertisement" out of the paper.

### When your Watch Stops

You cannot make it go by shaking it. When the bowels are constipated you can disturb them with cathartics but, like the watch, they will not be able to do their allotted work until they are put into proper condition to do it.

One cannot mend a delicate piece of mechanism by violent methods, and the use of the herb tonic laxative, Lane's Family Medicine

is the method adopted by intelligent people.

Headache, backache, indigestion, constipation, skin diseases—all are benefited immediately by the use of this medicine.

Druggists sell it at 25c. and 50c.

Leisure, Pres.; Merrill Ball, Sec'y, and Henry Phelps, Treas.

Mr. and Mrs. Levi Binford visited friends at Richmond over Sunday.

J. F. Tweedy was in Indianapolis Wednesday.

Owing to an accident, a page of Carthage items was overlooked in the Monday letter, and no account of the Thanksgiving service was printed. All the denominations were well represented at the union meeting at the Christian church. No arrangements had been made for special music, so the mixed choir was led by Rev. C. O. Whitely. Rev. Brunneau, of Irvington; Rev. Kennedy and Rev. D. C. Benjamin each had a part in the service. The sermon preached by Rev. Scull has been very highly praised, and was one of the best ever heard here. The collection was divided among the churches.

### Arlington.

Miss Fannie Sheppard, our popular postmistress, has been off on a vacation, visiting friends at College Corner, Ohio. She has returned and reports a royal good time.

Mrs. W. A. Hysong has been very ill the past few days, but is now much better.

J. S. Matthews and wife have been in Indianapolis for several days, calling on old friends and attending the Scoville meetings. Mr. Matthews returned Tuesday. Mrs. Matthews remained over to attend the Grand Charity Ball given by the "Flower Mission" at Tomlinson hall. It was the society event of the season.

The play given by the ladies of the "helping hand" of the Christian church and the report of the different ladies as to their financial qualifications in taking five cents and seeing what they could make out of it in three months, was quite novel and very interesting. These ladies showed themselves to be fine financiers, as they made from 75 cents to \$2.75 out of a nickel. This is more than the men can do. They have quite a nice bank account. The meeting was quite a success. Everyone present had a good time. The net receipts were over \$50.

L. T. Davis, our druggist is still very ill and not able to attend to business. We all hope he may soon be out again.

The protracted revival at the M. E. church has closed. It was quite a success and several new members were added.

Wm. Stanley, conductor on the Shelbyville division of the I. & C. traction line, with his family is visiting his mother, Mrs. S. Stanley.

Mrs. N. R. Farlow is very ill at her home in the I. & C. traction station.

Thomas Addison, who has typhoid fever at his father's home, Frank

Addison, is getting better rapidly and will soon be out again.

The new merchants who bought Ira Allentharpe's store are open for business. They are nice appearing gentlemen, and no doubt will have fine trade.

Great preparations are being made for a festive holiday time and many of our people are already doing their Xmas shopping in order to avoid the rush.

The Sunday school at the Christian church is making preparation for a grand entertainment Xmas eve, and we know we will have a fine time as Prof. Shauk is an expert in matters of this kind, and he is doing all he can to make it a grand success.

Arlington is on the verge of a coal famine with very little in sight. One carload came on the other day. No one can buy but a few hundred pounds. We hope that the weather will not turn cold.

Quite a number of people are sick and the doctors are very busy and happy.

Dr. Nave, formerly of this place, but now a resident of Fountaintown, was in town on business Wednesday.

Mrs. Hefflin passed away at 5:30 Wednesday evening, after a long illness of awful suffering, which was so terrible that it was a relief to see her freed from pain. Her children have the sympathy of her many friends.

Mrs. J. S. Matthews was called to Rushville last Wednesday evening to nurse Mr. Jesse Pavey, of West Eighth street.

Ira Allentharpe has commenced work on his residence and will soon have it completed and ready for a house warming.

Bee's Laxative Honey and Tar the original laxative cough syrup acts as a cathartic on the bowels. ## TRADED STORE FOR FARM IN SCOTT COUNTY

A deal was consummated yesterday through Owen L. Carr, of this city, whereby the general store, building and stock of Carr, Price & Stanley, of Arlington, was traded for a farm in Scott county. J. M. Hamlin is the purchaser.

### OUT OF SORTS

People Not Really Sick are Often Most in Need of Care

The people who actually are most in need of kind words and medical treatment are not those who are really sick, but just "out of sorts."

The old-time energy, force, strength and happy spirits are lacking; the physical and mental powers are flagging; there is poor appetite, and they cannot get the good out of the food they eat. In nine cases out of ten, this results directly from a weakened stomach, and no other treatment equals Mi-o-na to restore life and health.

When the nerves and muscles are weak, if there is sleeplessness, irritability, and specks before the eyes, when the head aches and there is a dull pain in the back, and there is any distress and heaviness in the stomach, dizziness and sometimes nausea, the use of Mi-o-na stomach tablets for a few days will make a world of improvement, and continued use for a reasonable time will restore perfect health.

These tablets are not mere digestives; they absolutely strengthen all the organs of digestion, so that there is good appetite, perfect digestion and strong nerves, when they are used.

A large box of Mi-o-na stomach tablets is sold for 50 cents by F. B. Johnson & Co., with an absolute guarantee that they will be successful in curing digestion and restoring health, or the money will be refunded. Ask them to show you the liberal guarantee they give with every 50-cent box of Mi-o-na.

## TAPE WORMS IN RABBITS --COTTON MARKET FALLS

Rabbits are Dying by "Inches" and are Not "Long" for this World

Stories have been floating in to the effect that many rabbits killed this year contain tapeworms.

Physicians have warned the people against eating baby bunny without thoroughly investigating the "interior" when preparing.

Some of the reports are that the tapeworms are thirty feet in length. Who ever stopped to measure a tapeworm? They say the rabbits are dying by "inches," and are not "long" for this world. But seriously, these tape worm stories have put a dent in the rabbit market. Yesterday "cotton" fell ten points.

## TOBACCO SECRETS.

What Makes the Chico One of the Mildest and Most Enjoyable Cigars on the Market.

How many people, even among the most confirmed smokers, know what constitutes the difference between a strong and a mild cigar? It is simple enough. The strong product is so made that it burns badly, while a mild cigar is one that burns well—like the Wadsworth Bros.' Chicos.

"These cigars," says Thos. W. Lytle, his local agent, "are made from a long Havana filler, carefully selected, with the best hand workmanship, and they burn freely with a firm, perfect ash, the result is a mild, pleasant and enjoyable smoke."

Six months ago the Chico was not known in Rushville, but to-day it is the most popular cigar in the city, and is the favorite although it sells for but five cents. Smokers who have heretofore wanted only ten or fifteen cent goods should step into Thos. W. Lytle's Drug Store and get a few Chicos. We know you will say, as do other fastidious smokers, that it is the mildest and most enjoyable cigar in the market.

Quite a number of young men from this city will attend the basket ball game between Richmond and Connersville at the latter city Friday night.

The \$15,000 damage suit of Bartholomew Landers vs. U. S. Board and Paper company was continued on account of the illness of Attorney John W. Kern, of Indianapolis.

While drilling a gas well for James Johnson, four miles east of Arlington, Ed. Akins struck an elm log at a distance of 150 feet under ground. They drilled for ten feet through it, and based up a barrel of wood in the operation.

The Presbyterian Brotherhood will meet on Friday night at 7:30 p. m. in the church parlors. The committee on by-laws will make their report. A program has been prepared. Light refreshments will be served at the close of the meeting. Let all be present.

The Indiana State Board of Health report of Rush county for October, shows twenty deaths. Three of these deaths were children under one year of age, one occurred between fifteen and nineteen years of age, and seven were sixty-five or more years of age. Two of the deaths recorded were due to violence.

Shelbyville Republican: The first car that went to Indianapolis Wednesday morning from this city left here at 9 o'clock. One of the high tension wires between Rushville and this city broke during the night and this caused the line to be "put out of business" until the repairs were made. No more cars were run Wednesday morning.

The average man or woman profits by the information supplied by the merchants and business men who advertise. They keep up with what merchants have to say about the goods they have on sale and before leaving home on a shopping expedition they know just where to go. We call special attention to the advertising columns of the Republican.

Shelbyville reports her usual daily sensation. This time it is only a shooting scrape. Charles Hall fired a colt revolver at William Holden, striking him in the arm and leg. The shooting was done without cause. Both men are colored. It's a dull, stupid day in Shelbyville when they do not have a suicide, or at least a little shooting scrape.

Lewis, W. S. Coleman, D. H. Dean, D. D. VanOsdel and George B. Jones.

New Castle Courier: Blon Vance, son of Sam Vance and wife, has given his many friends quite a surprise in the announcement that he was married Tuesday morning at Cincinnati to Miss Ella Shiveley of Mt. Summit. The bride went to Cincinnati early Tuesday morning and Mr. Vance went down the day before. Both are well known and have the best wishes of a host of friends. Mr. and Mrs. Vance are expected home in a few days and the blushing groom will have several "explanations" to make to his friends, who naturally presumed that he was a hopeless matrimonial case and never suspected it of him at all.

## BY THE WAYSIDE

Stewart Beale says Tom Bishop, the new stoker at the high and water plant, told him he was looking for a steady job. Stewart says they are using coal altogether now at the plant, and he told Bishop that if any man in Rushville had a steady job, he sure had one, as he is obliged to work twelve hours each day, and seven days in a week. Stewart added: "You ought to just see him—why he looks like the Jack of Clubs."
